The emerging-market green series is not drawn: its 2007 base is a single deal, so the index reaches 1,200 in 2008.
AE green
AE non green
Across 2008-09 advanced-economy green contracted -26.5% while non-green GREW +13.5%.
Pre-trends diverge, so no difference-in-differences estimate is reported. These series are descriptive.
